Select it *Right*... you will select it *Once*.

The Right
Choice is
the key to
Success

Company Story

Triosuite is a company specializing in *Digital Transformation* systems. Based on the ERP system *Trios365* as a core component compatible with many peripheral **Systems and Applications** aimed at enabling customers to automate all their business within a holistic

Digital
Transformation
vision.

in 2012, the spark of departure was the growing Business needs for a **Comprehensive** revolutionary product that **Automates all day-to-day** operations at a single station without the need to move between more than **one system.**

Taking advantage of their experiences from implementing many **Digital Transformation** projects for International systems, knowing weaknesses points and customer needs. The team created the smart **TrioBase** platform to serve the company's vision in developing a unique product with a superior quality.

Triosuite Now

From developing a smart platform idea to

- Build more than 35 internal systems serving all business sectors.
- Works on local servers or via cloud servers.
- Available to connect at all times and from any device.
- Develop many mobile and web applications.

The customers' experience has been and continues to be at the heart of every **Development we do.**
